EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Thomas Anderson on 4/28/2004.
3. The application has been amended as follows:

IN THE CLAIMS:

In claim 4, line 3, "a modular" has been changed to --the modular--.

In claim 5, line 10, "an" has been changed back to --a--.

In claim 5, line 12, "an attached modular" has been changed to --the attached modular--

4. The following is an examiner's statement of reasons for allowance: The reasons for allowance as set forth in the previous office action:

Claim 11 is allowed. Examiner notes the direct attachment combined with the description of the pivoting function requires a different structure than Costello in view of Tsuga, and that Dunn USP 5845348, cited but not applied, was seriously considered. Examiner notes that the apparatus of Dunn/Tsuga would have legs that pivot up rather than a vertical mast pivoting down with direct attachment of the handle assembly to the main cross member via hinge means and this direct pivot attachment would not serve to add compactness to the unit, and thus there

would be no motivation to combine Dunn and Tsuga since it already folds a different way.

Is still valid. However, the change in claim 11 disclosing that the first and second legs **near** a first end thereof, rather than **at** a first end thereof, respectively pivot about a substantially vertical axis at the first and second ends respectively of the main cross member was reconsidered. In view of the drawings and specification, examiner agrees that an earlier search looked for "near a first end" as described and this limitation was not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
